

# The Scratching Post

Dear Friends of Ferals,

Welcome to the new format of *The Scratching Post*. I hope you enjoy the new e-mail version. This will save trees, stamps, and money.

FCAP has been busy. Since January of 2010, 183 cats were spayed and neutered and 20 cats found forever homes.

FCAP is receiving high volumes of calls for help and we need more equipment to get the job done.

In the next week or two you will receive an appeal in the mail to help us buy anesthesia machines and traps. I know you will help us meet the need for the kitties.

As always, thank you for your help and support - together we are *improving the lives feral cats*.

Sincerely,  
Pat Noll  
President

## Meet CCAP Foster Cat Cricket

Cricket is a petite calico born in August of 2009. She loves to play "catch me if you can" with her foster parents and the other cats she lives with. Cricket's boundless energy and comical spirit keeps everyone entertained. To find out more about Cricket give FCAP a call at 336-378-0878, line three or go to [www.feralcatassistance.org](http://www.feralcatassistance.org).

## TNR becomes a Neighborhood Project!

Grace White and her neighbors have worked together to trap, spay, and return a mother cat and some of her kittens to the Aycock neighborhood.

Smattie and Crozie

"I told my neighborhood about you all (I'm in Aycock and we have a neighborhood ListServ) and one of my neighbors managed to trap another two cats from the same family, including the mother. He brought them to you, and now they're back living in his yard and still visiting me and my kitties from time to time. That family of cats has brought a lot of us neighbors together. The mother had quite a long family legacy around here, having kittens every year and moving them around our different houses, but always evading capture until now. And these were the only two kittens I ever managed to catch or tame from the many litters she had in my crawlspace or my attic. So thank you again!"
